BEECH GODDARD, LLC, MR. ROGER M. SHERR, ACTING PRESIDENT OF THE COVE CREEK CONDOMINIUM HOMEOWNER ASSOCIATION, MR. AND MRS. LARRY AND SUSAN FLOYD (LOT 13), AND MR. TIMOTHY SMITH (LOT 16), OF COVE CREEK CONDOMINIUM, CITY OF TAYLOR, WAYNE COUNTY, MICHIGAN, REQUEST A MODIFICATION TO A CONSERVATION EASEMENT (EASEMENT) HELD BY THE DEQ TO RESOLVE SEVERAL VIOLATIONS THAT HAVE TAKEN PLACE WITHIN THE EASEMENT. The Michigan Department of Environmental Quality (DEQ) required an easement over 1.74 acres of remaining wetland (recorded May 27, 2003) as a condition of DEQ Permit Number 02-82-0064-P for activities associated with the construction of a site condominium development. On December 12, 2006, a Notice of Violation was issued by the DEQ to address several wetland impacts within the easement and to require restoration. The Requesters propose modification of the easement to remove a total of 0.18 acre of land located in four (4) different areas (parts of Lots 13, 16, and two common areas) from the easement. Beech Goddard has proposed restoration of 0.20 acre of wetland in several locations within the easement and the purchase of 0.30 acre of wetland mitigation banking credit from the Green Heron Wetland Bank as additional compensation. DEADLINE FOR PUBLIC COMMENT ON A PROPOSED PLAN FOR AN INTERIM RESPONSE DESIGNED TO MEET CRITERIA (IRDC) FOR A PORTION OF THE FORMER LAKE SHORE INC. SITE (YANOVER PROPERTY), CITY OF MARQUETTE, MARQUETTE COUNTY. Written comments are being accepted on a proposed plan for Interim Response Designed to Meet Criteria (IRDC) for a portion of the former Lake Shore Inc site known as the "**Yanover Property**" located at 975 Lake Shore Boulevard. This parcel is the location of environmental contamination which is the result of iron foundry operations and the on-site disposal of foundry sand from the early 1900s until the foundry closed in 1990. Select waste removal and demolition activities were conducted at this location in the late 1990s. The remaining contamination at the site includes metals in the soil identified during site investigation. A Notice of Approved Environmental Remediation was recorded for this property with the Marquette County Register of Deeds in 1998 which restricted land uses to Industrial and Commercial categories. This IRDC is intended to allow the described portion of the site to be redeveloped for limited residential use. The Interim Response plan includes provisions for a permanent barrier to completely cover the Yanover-owned parcel in order to perpetually prevent direct contact with the contaminated soil. The barrier includes pavement, buildings and clean soil at least 6 inches thick. A restrictive covenant will be filed with the property deed which identifies the contamination, describes the protective barrier, and prohibits uncontrolled disturbance of the protective barrier. The proposal includes an Operation and Maintenance Plan which provides for the long term monitoring of the barrier and compliance with land use restrictions. This IRDC plan is available for review at the Michigan Department of Environmental Quality (DEQ), Upper Peninsula District Office. Written public comments should be received by the DEQ no later than 5:00 pm, August 20, 2008. Mail your comments to: Steven Harrington, Michigan Department of Environmental Quality, Remediation and Redevelopment Division, 420 5th Street, Gwinn, Michigan 49841. Information Contact: **Steven Harrington**, Remediation and Redevelopment Division, 906-346-8507 or Email at harringtons@michigan.gov.
